

# “Essex’s new 1200 SX liftcrane delivers long reach, high capacity and precise load control.”

Mitch Carte, Logistics Manager, The Bayou Companies, LLC

“...the cab is really comfortable, and the controls are smooth. I usually run Bayou’s friction-clutch rigs, but it was easy to switch to these responsive hydraulics. The 1200 SX lifts, travels and swings smoothly.”

McArthur Caulin,  
Crane Operator  
The Bayou Companies, LLC

Bayou is a pipe yard serving the offshore oil and gas industries for over 60 years. They prepare pipe with a variety of coatings including, corrosion resistant wrapping and concrete casings. The pipe arrives as 40-foot sections, and Bayou welds these into doubles, triples, or quad-joint pipes. The new Liebherr with its 275-ton capacity, can handle even the largest pipe.

This Liebherr was stacking 10-inch, 20,000 lb, by 80-foot, double-joint pipes. The pipes were lifted two at a time. Later in this rental period they loaded quad-joint pipes on barges destined for offshore. The Liebherr’s 275-ton capacity allowed loading these 160-foot by 26-ton quads, two at a time, to speed the process. Contact Essex Crane Rental when your project calls for cranes...delivered in a hurry.
